

## VT-M2M-S2024 Industrial Switch

### Product Brief

VT-M2M-S2024 industrial switch is a high-performance network device specifically designed for harsh industrial environments. Powered by the RISC-V architecture-based CTC2118 processor, it delivers robust data processing capabilities while achieving excellent power consumption control. The switch provides 24 10/100/1000M Ethernet ports and 4 Gigabit SFP optical ports, offering flexible and diversified networking methods. The device is integrated with 2-channel relay alarm outputs, all-round LED status indicators and a RTC, facilitating real-time system monitoring, event logging and automated control.

This switch supports a wide-range DC input of 12–48V, making it compatible with various industrial environments. Developed based on the open Linux operating system, it features excellent software compatibility and ample room for function expansion. With an industrial-grade design and a wide operating temperature range ( $-40^{\circ}\text{C} \sim +75^{\circ}\text{C}$ ), the entire unit boasts high and low temperature tolerance. It can operate stably for long periods in harsh environments, making it an ideal choice for building reliable industrial communication networks.

### Exterior and Features

#### VT-M2M-S2024

-  CTC2118 RISC-V architecture CPU
-  24 x RJ45 & 4 x SPF, 10/100/1000Base-Tx
-  Multiple I/O interfaces for flexible connection
-  Linux operating system for easy configuration
-  12~48V DC, wide range of operating voltage
-   $-40^{\circ}\text{C} \sim +75^{\circ}\text{C}$ , wide range of operating temperature

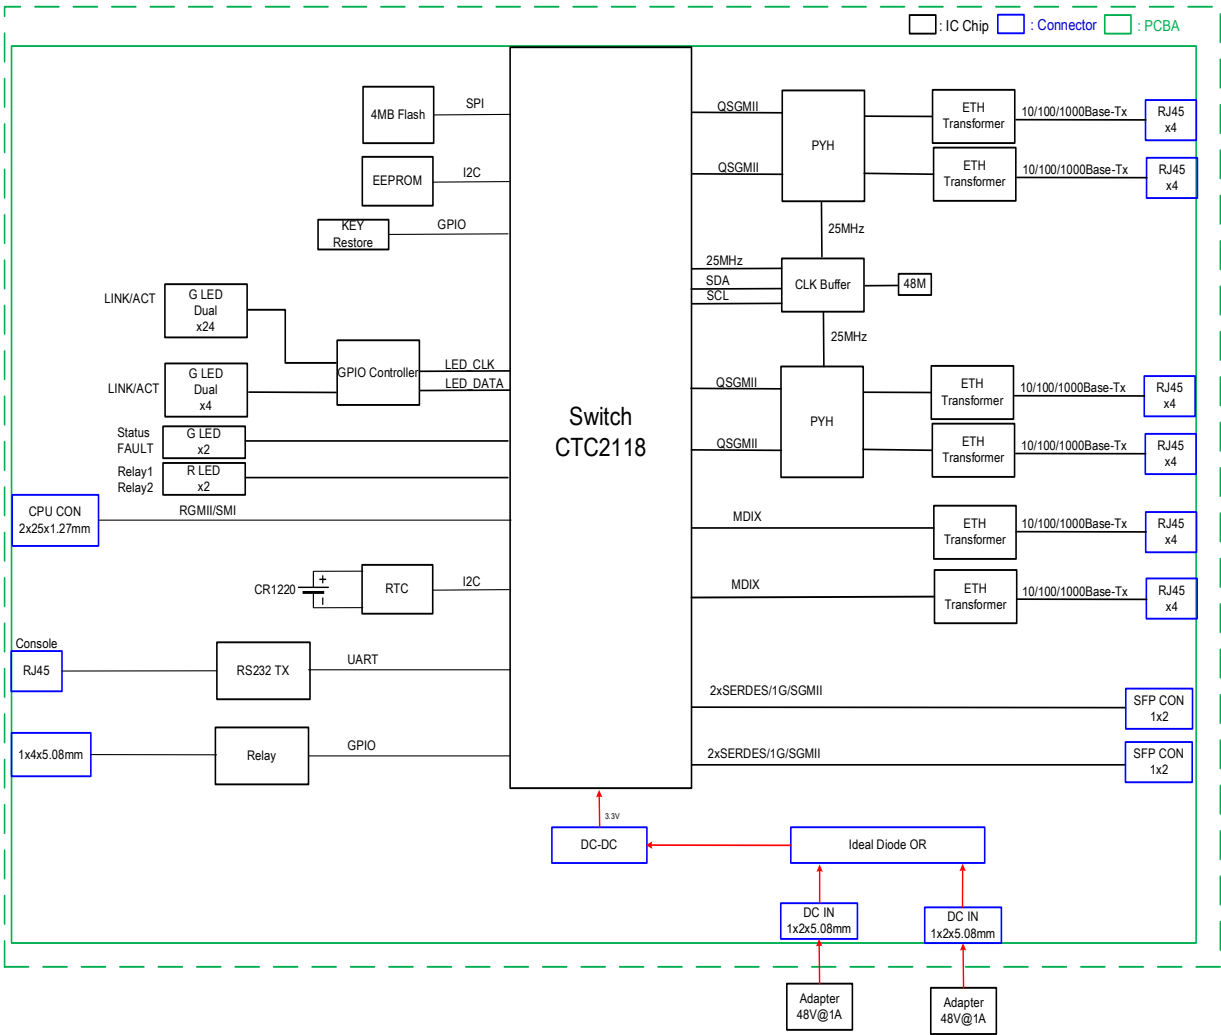

VT-M2M-S2024 Industrial Switch
 Datasheet

VT-M2M-S2024			
System	CPU	CTC2118, RISC-V architecture	
	ROM	64KB	
	SRAM	192KB	
	EEPROM	8KB	
	Flash	4MB	
Communication	Ethernet	8 × RJ45, 10/100/1000Base-Tx	
		16 × RJ45 (2 × CTC21108CR2), 10/100/1000Base-Tx	
		4 × SPF, 10/100/1000Base-x	
System Control	Relay	2 × Alarm Relay interface (30V/2A DC, 125V/0.5A AC)	
	RTC	Supported	
	Button	1 × Restore Button (Restore system upon long press)	
	LED	4 × System status indicator (PWR, SYS, Alarm1, Alarm2)	
		24 × Network status indicator (Yellow (ON): 10/100Mbps, Green (ON): 1000Mbps)	
		4 × SPF indicator (Left (ON): 100M optical module connected, right (ON): 1G optical module connected)	
Software	OS	Linux	
Power	Input	12~48V DC, recommended: 12V=2A	
	Terminal	2 × Power terminal, 2-pin, 5.08mm	
Mechanical	Dimensions	482.60mm × 300.00mm × 44.00mm	
	Installation	Cabinet mounting	
	Cooling mode	Fanless, heat sink	
Environment condition	Temperature	Operating: -40℃ ~ +75℃	Storage: -40℃ ~ +85℃
	Humidity	Operating: 5%~95%RH (Non-condensing)	
	Certification	RoHS

Power Terminal Block	2

Since its establishment in 2002 by two Silicon Valley entrepreneurs, Vantron Technology has been at the forefront of the connected IoT devices and IoT platform solutions. Today, Vantron boasts a global customer base that includes Fortune Global 500 companies. Its product lines cover intelligent edge hardware, IoT communication devices, intelligent displays, and BlueSphere cloud platforms.
