

HCAM26 Wi-Fi HaLow IP Camera

Product Brief

Vantron HCAM26 Wi-Fi HaLow IP camera is designed for building security or public surveillance applications. It integrates VT-MOB-AH-L, a self-developed Wi-Fi HaLow module that complies with the prominent sub-1GHz IEEE 802.11ah (Wi-Fi HaLow) standard. It is designed to operate in station mode when paired with a Wi-Fi HaLow access point such as Vantron HAP101 or HAP103 to ensure long-distance, reliable Wi-Fi HaLow connectivity.

HCAM26 delivers perfect output capturing 5.0 Megapixel high-resolution images for optimal visual quality. Its two-way audio capability allows seamless remote communication with its built-in microphone and speaker. The Micro SD slot supports local storage expansion, allowing for video playback of the monitoring videos for extended time period. Moreover, the camera supports up to 1km transmission distance while demonstrating unparalleled wall penetration capabilities. In general, HCAM26 offers an ideal low-power security camera solution for remote areas, isolated plants, smart home systems, and other environments.

Exterior and Features

HCAM26

-  Sub-1 GHz frequency bands
-  Up to 1km transmission distance
-  Resolution up to 1080P @30fps
-  Two-way audio
-  Ultra-low power consumption
-  Better penetration through walls and obstacles
-  Local storage expansion supported
-  2600mAh Li-ion battery
-  Screw hole for tripod connection

HCAM26 Wi-Fi HaLow IP Camera Datasheet

| HCAM26 | | | |
|-----------------------|-------------------|--|---|
| System | CPU | Quad-core ARM Cortex-A7 32-bit vision processor | |
| | MCU | RISC-V MCU | |
| | NPU | 2.0 Tops, support INT8/ INT16 | |
| | Memory | 1GB DDR4 | |
| | Storage | 8GB eMMC | 1 x SD slot |
| Camera Features | Image sensor | 5MP 1/4" CMOS image sensor | |
| | Output format | 8-/10-bit RGB RAW output | |
| | Pixel size | 1.4μm x 1.4μm | |
| | FOV | 73.9° (V), 92.4° (H), 119.9° (D) | |
| | Aperture | F2.4 | |
| | Focal length | EFL: 1.785mm | BFL: 0.934mm |
| | Lens construction | 6P | |
| | Object distance | 20cm~180cm | |
| | Video compression | H.265/H.264 | |
| | Resolution | 1080P @30fps | |
| | Power requirement | Active: 198mW; Standby: 35μW | |
| Wi-Fi HaLow Features | Wi-Fi standard | IEEE 802. 11ah | |
| | Wi-Fi mode | Station | |
| | Frequency range | US: 902MHz ~ 928MHz | |
| | Security | WPA3, AES, SHA1, SHA2 | |
| I/O | USB | 1 x USB Type-C, image flashing supported | |
| | Micro HDMI | 1 x Micro HDMI, up to 4K @30Hz resolution, no sound output | |
| | Audio | 1 x Mic in | 1 x 1W Speaker |
| | Tripod connection | Supported | |
| | Watchdog timer | Supported | |
| System Control | LED indicators | 1 x Power indicator | 1 x Wi-Fi HaLow connectivity indicator |
| | Button | 1 x Power button | 1 x Restore button (reboot/factory reset) |
| Mechanical | Dimensions | 91.6mm x 65mm x 47.2mm | |
| | Battery | 2600mAh, up to 4H operation | |
| Power | Input | 5V/2A DC via the USB Type-C | |
| | Consumption | < 3.5W (average) | |
| Software | Operating system | Linux Yocto | |
| Environment Condition | Temperature | Operating: -10°C ~ +50°C | Storage: -20°C ~ +70°C |
| | Humidity | 5%~ 95% RH (non-condensing) | |
| | Certification | FCC, CE | |

Product Outlines

Ordering Information

| Ordering No. | Memory & Storage | Description | HaLow Frequency Range | OS |
|--------------|------------------|--|-----------------------|-------------|
| HCAM26 | 1GB + 8GB | 5MP camera, USB Type-C, Micro HDMI, Mic, Speaker | 902MHz ~ 928MHz | Linux Yocto |

| Packing list | |
|------------------------------|---|
| HCAM26 Wi-Fi HaLow IP camera | 1 |

| Optional accessory | |
|----------------------------------|-------|
| 12V/2A power adapter & USB cable | 1 kit |

Since 2002 established by two Silicon Valley entrepreneurs, Vantron Technology has been a pioneer in connected IoT devices and IoT platform solutions. Today, Vantron is serving customers all over the world, including many Global Fortune 500 companies. The product lines cover intelligent edge hardware, IoT communication devices, industrial displays and the cloud-based BlueSphere device management platform.

Vantron offers IoT communication devices that enable multi-protocol connections for industrial equipment and local data processing through edge computing. With abundant wired and wireless connectivity options, remote operations and maintenance have become easier than ever. Such devices can be deployed across different sectors such as smart retail, medical and warehousing. Moreover, Vantron's IoT solutions are designed to facilitate enterprises' digital transformation, streamline operations, enhance productivity, etc.
