

TPC070-3568

7" All-in-one Panel PC

Product Brief

Vantron TPC070-3568 is an open-frame 7-inch all-in-one panel PC powered by a quad-core Cortex-A55 processor. It features a high-definition, reliable 7-inch touchscreen monitor integrated with a compact, multifunctional embedded industrial motherboard, meeting diverse customer application requirements. The device is equipped with a high-performance, low-power processor, allowing for greater flexibility in solutions. In addition, its fanless design enhances stability and reliability during operation.

TPC070-3568 offers rich interfaces to accommodate various peripheral needs. Additionally, it can be customized based on customer requirements, making it adaptable for applications in retail, logistics, healthcare, and more. This all-in-one touchscreen device integrates touch, display, motherboard, and software into a comprehensive solution, making it the preferred choice for enterprises seeking to enhance their success.

Exterior and Features

TPC070-3568

Since its establishment in 2002 by two Silicon Valley entrepreneurs, Vantron Technology has been at the forefront of the connected IoT devices and IoT platform solutions. Today, Vantron boasts a global customer base that includes Fortune Global 500 companies. Its product lines cover intelligent edge hardware, IoT communication devices, intelligent displays, and BlueSphere cloud platforms.

Vantron’s intelligent displays are comprised of industrial tablets, touchscreen monitors and all-in-one panel PCs that deliver enhanced device performance and exceptional human-machine interactive experiences. The industrial tablets are powered by industry-leading brands such as NXP, MediaTek, and Intel. The touchscreen monitors offer flexible installation options to cater to various application scenarios. The all-in-one panel PCs offer an overall solution that integrates the touchscreen monitor, display, processor, and operating system. Moreover, the displays are built to excel in harsh environments thanks to advanced features like waterproofing, dustproofing, and shatter resistance.
