TPC215-TGL

21.5" All-in-one Panel PC

Product Brief

Vantron TPC215-TGL is a 21.5" desktop all-in-one panel PC, powered by the high-performance Intel Core 11th processor. It features a 21.5-inch 10-point PCAP touch screen with 16:9 aspect ratio, delivering full HD images. TPC215-TGL offers multiple configuration options with i3/i5/i7 CPU available. Its rich interfaces allow for connection of different peripherals and displays, making it very suitable to be applied in self-service kiosks and multi-media terminals. The VESA pattern also enables users to mount and maintain the device more flexibly for industrial control.

Vantron TPC series all-in-one panel PCs offer an overall solution that integrates the touchscreen monitor, display, processor, and software operating system, making them a first choice in IoT applications.

Since its establishment in 2002 by two Silicon Valley entrepreneurs, Vantron Technology has been at the forefront of the connected IoT devices and IoT platform solutions. Today, Vantron boasts a global customer base that includes several Fortune 500 companies. Its product lines cover edge intelligent hardware, IoT communication devices, industrial displays and BlueSphere cloud device management platform.

Vantron's intelligent display systems are comprised of mobile PCs, touchscreen monitors and all-in-one panel PCs that deliver enhanced device performance and exceptional human-machine interactive experiences. The mobile PCs are powered by industry-leading brands such as Rockchip, NXP, MediaTek, and Intel. The touchscreen monitors offer flexible installation options to cater to various application scenarios. The all-in-one panel PCs offer an overall solution that integrates the touchscreen monitor, display, processor, and operating system. Moreover, the displays are built to excel in harsh environments thanks to advanced features like waterproofing, dustproofing, and shatter resistance.
